

ReCiPe

Online Course

Location: This is a 1.5 hr online course, conducted via the web & phone

2010 Schedule: Jan 19, Feb 16, March 23, April 27, June 17, July 8, Sept 23, Oct 7, Dec 9 (also scheduled upon request/interest)

Time: 1:00-2:30pm EST (subject to change)

Cost: \$75 per person

Registration: Email the training registration form (found online) to training@earthshift.com

COURSE OBJECTIVE

To give our students an understanding of the new ReCiPe impact assessment method.

DESCRIPTION

This course will include a detailed discussion of the ReCiPe method, beginning from the new and improved features to the limitations in the method. Each impact category will be discussed while also focusing on how the impact categories in ReCiPe differ from the existing methods.

Topics Covered

- Framework of the method
- New and improved features of the method
- How each impact category is modeled in the ReCiPe method and how do they differ from the impact categories in the other methods
- Limitations in the method

ORGANIZATION

The class will meet online at www.gotomeeting.com. You will be provided with an invitation and password a couple days before the class. The best set up for taking the class is to have one computer to view the slides and one computer set up with SimaPro to follow along and gain hands on experience. If you would like to take the class but do not have access to the software, we will provide you with a temporary license. Before the class you will receive a print-out of the presentation slides, which you can use for note taking during the class. These prove to be a great help when conducting your future LCA's.

PREREQUISITES

We suggest that students have either previously taken our LCA in SimaPro online or onsite courses or have a working knowledge of conducting LCAs within SimaPro.
