The 3Pillars licensing model is based on usage – for companies just getting started with the methodology of SROI we provide a single study version – this allows an organization to test the SROI method on an investment decision at a reduced rate. The single study subscription is a one year subscription with 1 facilitator and 10 participant users. The Multi-study license allows an organization to run an unlimited number of studies through out the subscription period and includes 2 facilitators and 25 participants users. Multiple study subscriptions require a one time set up fee.
